

Is that AI?

AI-Generated Images

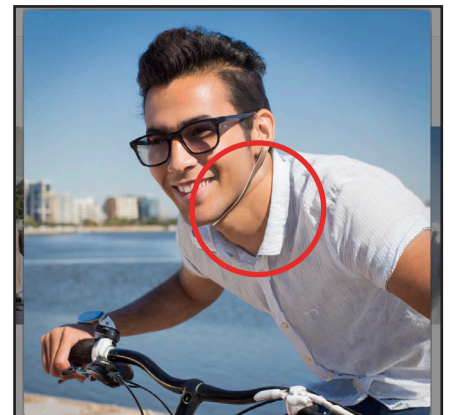

- Increasingly common across the internet.
- Can be found:
 - On social media sites
 - In advertising
 - In stock photography
- Reputable sites will label AI-generated images.

Created with Adobe Firefly

Tips for Recognizing AI-Generated Images

- Zoom in and examine the details.
- Blurred or unclear boundaries
- Incomplete or oddly shaped body parts: human hands are difficult for AI to accurately create.
- Extra things or smudges

Tools for Detecting AI

- Google image search and Google Lens 
 - Right click on an image
 - Select: **Search image with Google Lens**
- Bing visual search
